

Service Update — All Testing Restored

Dear Regional Pathology Services Clients,

We have completed our recovery from the recent water-related incident that affected instrumentation in the Microbiology and Serology Laboratories.

The following tests are expected to be returned in-house by Friday September 5th. The RPS test catalog has been updated to reflect these changes.

- Celiac Disease Screen (CELSCR)
- tTG IgA (TTGA)
- CMV IgM and IgG Antibodies (CMVM and CMVG)
- EBV Antibodies Panel (EBVAT)

Your understanding and patience as we worked through the recovery process has been greatly appreciated!
