## LAB ALERT

Date: October 14, 2022

### High-Sensitivity Troponin I Reporting Update

Dear Regional Pathology Clients,

On Monday, October 17, 2022 an update will be made to reporting the Delta value (i.e. change from previous result) for repeat high sensitivity troponins. **Positive Delta changes will be reported as numerical values in pg/mL as before.** If the repeat troponin value is less than the initial troponin value a text code **“Negative Delta Value”** will be reported in the Delta value field.

If you have questions or concerns about this change, please contact Dr. Sam Pirruccello (phone: 402-559-7707 or 402-763-3157, pager: 402-888-1640, e-mail: [spirrucc@unmc.edu](mailto:spirrucc@unmc.edu)).
